INTRODUCTION TO EGS

ABOUT US

Almemary is a group of professional engineers, technicians, skilled & unskilled workers.

We are into the field of manufacturing and development of infra-structure projects such as:

- Pre-Engineering Buildings
- Structural steel construction
- Industrial civil construction
- Sports and Recreation
- Wood & Interior Fit-out Works
- MEP Works

We undertake whole projects like wise from Design to excavation & foundation work; from exterior & façade to interior fitout works.

MESSAGE FROM C.E.O.

ABOUT US

Almemary, we believe that every project is an opportunity to create something extraordinary. We understand that your construction needs go beyond mere structures; they reflect your aspirations, values, and unique identity. It is our privilege to bring those dreams to life, and we are committed to delivering nothing short of excellence.

In an ever-evolving industry, embracing growth and innovation is crucial. We continuously strive to stay at the forefront of technological advancements, trends, and best practices.

Our team of skilled professionals is equipped with the latest tools, techniques, and expertise to ensure that your project is executed with precision and efficiency.

Eng. Mohamed Baki
Arch_home_design @ yahoo.com

OUR VISION

Al-memory strives to be a best solution provider. We at EGS has our vision aligned with core values of Kingdom's Vision of 2030:

- A VIBRANT SOCIETY
- A THRIVING ECONOMY
- An AMIBITIOUS NATION

MANIFESTO

We at Al-memory always endeavour to achieve innovative and effective solutions to engineering construction industry that continuously contribute towards better sustainable and prosperous future.

R

OUR MISSION

Al-memory aims to be a first-class sustainable solution provider of engineering construction field.

We are specialized in executing projects with our professional Engineers, Supervisors and craftsmanship.

In a rapidly changing field, it's essential to embrace progress and creativity.

We are committed to maintaining a leading position by actively pursuing the latest technological developments, staying updated on trends and adopting best practices.

SERVICES

OUR SERVICES

We at Al-memary, continuously strive to provide state of the art solutions to our valuable clients across the Kingdom in-order to achieve their dreams through sustainability and innovation.

With years of experience in the industry, we take pride in delivering high-quality solutions that meet the unique requirements of each project.

OUR EXPERTISE

We at Al-memory, take privilege to mention that we offer our expertise in following fields:

- **Structural Steel Works**
- **Industrial Civil Works**
- **Sports & Recreational Works**
- **Wood & Interior Works**
- **MEP Works**

EXPERTISE

**STRUCTURAL STEEL
WORKS**

PRE-ENGINEERING BUILDING

Pre-engineered steel buildings
OR PEBs are custom-designed and
fabricated structures that are
manufactured off-site and then assembled
on-site.

These buildings are designed to meet specific
requirements and are cost-effective, durable, and
energy-efficient

APPLICATIONS:

Airplane
Maintenance
Hangar

Factories
&
Industries

Warehouses
&
Workshop

Showrooms
&
Supermarkets

HOT ROLLED STEEL BUILDING

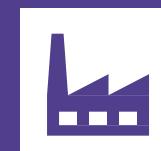

Hot rolled steel buildings are constructed using steel that has been heated above its recrystallization temperature and then shaped into various structural components.

These buildings are known for their strength, durability, and versatility, making them suitable for a wide range of applications.

APPLICATIONS:

Gas Station

Offices
&
Factories

Sheds
&
Workshop

Educational
and
other Institutes

Structural
Steel Bridge

PRE-FABRICATED BUILDING

Pre-fabricated steel buildings are structures that are manufactured off-site in a factory-controlled environment and then transported to the construction site for assembly.

These buildings offer quick installation, cost-effectiveness, and flexibility in design, making them an ideal choice for various industries.

APPLICATIONS:

Residence
&
Recreational
Areas

Offices
&
Porta Cabin

Sheds
&
Workshop

Light Guage
Steel Buildings

Steel Jadder

CHAIN LINK FENCE

Chain link fences are made of interlocking steel wires woven into a diamond-shaped pattern.

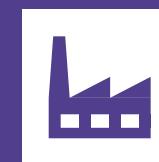

These fences provide security, boundary demarcation, and can be used for various applications such as residential, commercial, industrial, and recreational purposes.

They are durable, low maintenance, and offer visibility while maintaining security.

APPLICATIONS:

Residential

Industrial

Markets

Recreation

STRUCTURAL STEEL

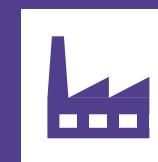

OVERHEAD CRANE

Also known as bridge cranes or overhead traveling cranes, are industrial machines used for lifting and moving heavy loads in factories, warehouses, and construction sites. They consist of a horizontal beam, known as a bridge, which is supported by two end trucks and travels along a runway system. The bridge is equipped with a hoist or trolley that moves vertically to lift and lower the load.

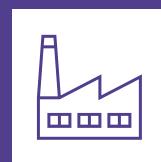

APPLICATIONS:

Warehouses

Industrial

Factories

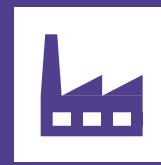

ROOFING SYSTEM

The roofing system typically consists of steel frames, roof panels, and insulation materials. The steel frames are pre-engineered and fabricated, to precise specifications, ensuring structural integrity and durability. The roof panels are also, pre-fabricated and come in various materials such as metal sheets or composite panels. These roofing systems are known for their cost-effectiveness.

APPLICATIONS:

Residential

Industrial

Markets

Recreation

STRUCTURAL STEEL

FAÇADE SYSTEM

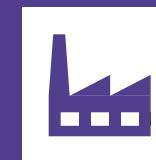

Facade systems, also known as building facades or building envelopes, are the outer shell or skin of a building. They serve both functional and aesthetic purposes, providing protection from the elements while also contributing to the building's appearance and energy efficiency.

STRUCTURAL STEEL

APPLICATIONS:

Residential

Industrial

Markets

Recreation

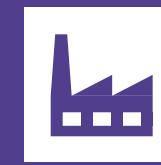

SKYLIGHT SYSTEM

They are integrated into the pre-engineered roof panels, ensuring a seamless and watertight connection. The skylights can be designed in various shapes and sizes to suit the specific needs and design preferences of the building. By utilizing skylights, these systems reduce the need for artificial lighting during the day, resulting in energy savings and reduced electricity costs.

APPLICATIONS:

Residential

Industrial

Warehouse

Recreation

EXPERTISE

*INDUSTRIAL CIVIL
WORKS*

EXCAVATION

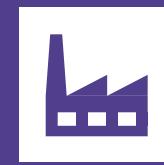

Excavation involves the process of removing earth or rock from a construction site to create space for foundations, basements, or other structures.

This process is typically carried out using heavy machinery such as excavators, bulldozers, or backhoes.

APPLICATIONS:

Residential

Industrial

Markets

Recreation

BACKFILLING

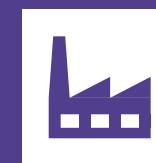

Backfilling is the process of refilling an excavated area with soil or other materials after the completion of a construction project.

It helps to stabilize the ground and provide support to structures, such as retaining walls or foundations.

APPLICATIONS:

Residential

Industrial

Markets

Recreation

RAFT FOUNDATION

INDUSTRIAL CIVIL

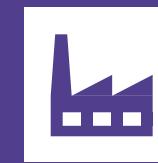

A **raft foundation**, also known as a **mat foundation**, is a type of foundation used to distribute the load of a structure over a large area of soil.

It consists of a **concrete slab** that extends over the entire footprint of the building and provides stability and support.

APPLICATIONS:

Residential

Industrial

Markets

Recreation

INDUSTRIAL FLOORING

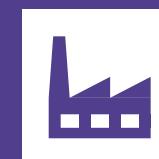

Industrial flooring refers to the specialized flooring systems used in industrial facilities such as factories, warehouses, or manufacturing plants.

These floors are designed to withstand heavy loads, chemical spills, abrasion, and other harsh conditions commonly found in industrial environments.

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

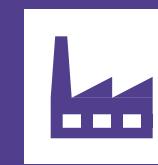

INDUSTRIAL CIVIL

APPLICATIONS:

Residential

Industrial

Markets

Recreation

PIPELINES

These include Supply and installation of Concrete and Steel Pipelines.

This includes; Excavation, installation and then backfilling in the designated area

INTERIOR FITOUT

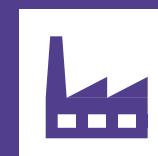

Interior fit-out projects involve the process of designing and constructing the interior spaces of a building to meet specific functional and aesthetic requirements.

This includes installing partitions, ceilings, flooring, lighting, HVAC systems, and other interior elements.

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

GLAZING WORKS

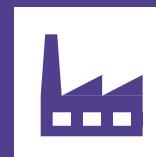

A **glazing system** refers to the installation of glass panels or windows in a building's façade.

It involves the design, fabrication, and installation of glass components to provide natural light, thermal insulation, and visual appeal.

APPLICATIONS:

Residential

Industrial

Commercial
Buildings

Sports &
Recreation

ASPHALT WORKS

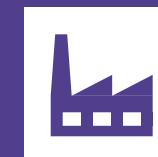

Asphalt work involves the installation and maintenance of asphalt pavements, such as roads, parking lots, or driveways.

It includes processes such as grading, compacting, and applying layers of asphalt mix to create a smooth and durable surface.

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

INDUSTRIAL CIVIL

R

ALUMINIUM COMPOSITE PANEL

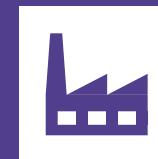

Aluminium composite panels (ACP) are lightweight, durable, and versatile building materials commonly used in façade systems.

They consist of two aluminium sheets bonded to a core material, such as polyethylene, providing strength, insulation, and aesthetic options.

APPLICATIONS:

Residential
Buildings

Industrial

Commercial

Sports &
Recreation

INSULATION WORKS

Insulation materials are used in construction to reduce heat transfer, improve energy efficiency, and provide acoustic insulation.

Common insulation materials include fiberglass, mineral wool, foam boards, and spray foam insulation. These materials help to maintain comfortable indoor temperatures and reduce energy consumption.

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

Offices

INSULATION WORKS

FIBRE GLASS

Fiberglass insulation consists of fine glass fibres that are woven together to create a fluffy material. It is commonly used in walls, ceilings, and attics to reduce heat transfer.

INDUSTRIAL CIVIL

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

Offices

INSULATION WORKS

MINERAL WOOL

Mineral wool, also known as rock wool or stone wool, is made from molten rock or slag that is spun into fibres.

It is used for insulation in walls, roofs, and floors and provides excellent fire resistance.

INDUSTRIAL CIVIL

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

Offices

INSULATION WORKS

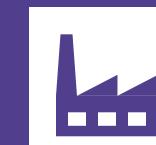

FOAM BOARDS

Foam boards, such as expanded polystyrene (EPS) or extruded polystyrene (XPS), are rigid insulation panels that are lightweight and easy to install. They are commonly used in walls, roofs and foundations.

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

Offices

INSULATION WORKS

SPRAY FOAM

Spray foam insulation or Polyurethane foam is a liquid foam that expands when applied and hardens into a solid material. It can be sprayed onto surfaces, filling gaps and creating an effective air barrier.

APPLICATIONS:

Residential
Zones

Industrial

Commercial
Areas/Zones

Sports &
Recreation

WOOD WORKS
& *INTERIOR FITOUT*
SOLUTIONS

WOOD WORKS

At Al-memary, we provide all kinds of commercial and outdoor/indoor wood products. Depending on the complexity the type of wood varies.

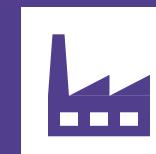

Our range of wood works includes

- **Doors & Windows**
- **Office Furniture**
- **Outdoor Wooden Recreational Items**
- **Wall Panels**
- **Wall Cabinets and Wardrobes**

INTERIOR FIT-OUT

Interior fit-out works involve designing and decorating indoor spaces in buildings like offices, shops, restaurants, homes, and other places. This includes putting in different things to make the inside useful, nice to look at, and just what the client wants. These include

- Partition Works
- Gypsum Board Drywalls
- Acoustic Wall Panels
- Office Fit-outs
- Sales Counter Tops

*SPORTS & RECREATIONAL
SOLUTIONS*

OUR RANGE OF SPORTS SOLUTIONS INCLUDES

POLYURETHANE FLOORING

VINYL SPORTS FLOORS

ACRYLIC FLOORS

HARDWOOD FLOORS

EPDM SURFACE

ARTIFICIAL GRASS

SPORT ACCESSORIES

OUTDOOR FITNESS

POLYURETHANE FLOORING

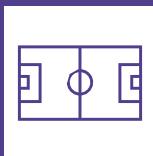

Polyurethane sport floors are known for their guaranteed hardwearing quality for all kinds of sports in all types of climates across the world. The high slip-resistance and the outstanding wear-resistance make the Polyurethane sports floor system the right choice for many professional and recreational athletes

RUNNING
TRACK

SPORTS
COURTS

MULTI-
PURPOSE
SPORTS COURTS

COMMERCIAL

APPLICATIONS

VINYL FLOORING

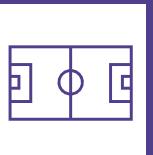

Vinyl Flooring is an excellent choice for heavy traffic areas. Its surface treatment layer makes it safe and easy to maintain, as well as being flexible, durable and high performance.

Luxury Vinyl Tile (LVT) flooring is a kind of high-quality decorative vinyl flooring, made to resemble wood or stone for example, but much easier to maintain.

WPC (wood-polymer composite) vinyl flooring is a resilient and springy type of flooring, which gives a more natural look, and importantly, natural feel to a floor

SPORTS COURTS

MULTI-PURPOSE SPORTS COURTS

APPLICATIONS

ACRYLIC FLOORING

Acrylic flooring is long lasting with excellent durability. It is easy to install and has low ongoing maintenance costs. It comes in variable cushion thickness, and is non-porous meaning it's suitable for outdoor sport flooring

RUNNING
TRACK

SPORTS
COURTS

MULTI-
PURPOSE
SPORTS COURTS

COMMERCIAL

APPLICATIONS

HARDWOOD FLOORING

We offer a variety of hard maple floor systems perfect for sports such as basketball, volleyball and racquetball.

Our permanent and portable hardwood sport surfaces are engineered with the players and facilities in mind.

SPORTS & RECREATIONAL

BASKETBALL COURT

SQUASH COURT

MULTI- PURPOSE
SPORTS COURTS

APPLICATIONS

EPDM FLOORING

EPDM (ethylene propylene diene monomer rubber) is a type of synthetic rubber. EPDM rubber flooring comes in different forms including rolls, tiles, and granules. It is 100% dyed through, which means it keeps its colour over the long term. It is used as safety surfacing under playground equipment to lessen injury, and is also used for components that provide elasticity, like bungee cords

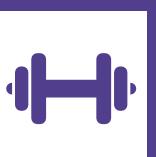

SPORTS & RECREATIONAL

WALKING
PATH

RUNNING
TRACK

FITNESS
& GYM

ENTERTAIN-
MENT

SWIMMING
POOLS

PLAY-
GROUND

COMMERCIAL

APPLICATIONS

ARTIFICIAL GRASS

Artificial grass is a high-performance material, which offers a high-quality viable alternative to natural grass in sports fields. Artificial pitches now come closer than ever to matching the performance of natural grass, both in terms of function and feel. Artificial grass has a natural look but without the high maintenance, and is much more durable

SPORTS & RECREATIONAL

SPORTS
COURT

LANDSCAPE

APPLICATIONS

CRICKET SYNTHETIC SURFACING

Our Design & Advisory service makes it simple to select the best artificial cricket facility. We will assist you in determining which non-turf cricket pitch system is best for your players and the most cost-effective for your budget. We also provide full support and advice at every step of the process

EGS can provide the right solution tailored to individual needs and budgets with a variety of artificial pitch systems that are KSA portable indoor/outdoor cricket mats.

OUR RANGE OF SPORTS SOLUTIONS INCLUDES

PLAYGROUND

SOFTPLAY

SPLASH PADS

ZIPLINES

CLIMBING WALLS

TRAMPOLINES

PLAYGROUND

We supply a wide range of accessible equipment designed to meet American and European Safety Standards. Every product we manufacture is designed with quality, safety, and value in mind. With years of playground experience, industry knowledge, and children's play needs, we provide an unforgettable play experience for your children.

With help from our nationwide consultants, and based on best-practice research from leading experts, we help children establish healthy habits for life

SPORTS & RECREATIONAL

SOFTPLAY

Soft play areas are fun and safe soft playgrounds for children of all ages that involve crawling, climbing, sliding, and playing. They can be two or more floors, both indoors and outdoors and offer up a variety of playful challenges

SPORTS & RECREATIONAL

CLIMBING WALLS

Our products include regular and augmented climbing walls. We provide a complete service from design, through to installation and maintenance, for both indoor and outdoor climbing structure projects.

SPORTS & RECREATIONAL

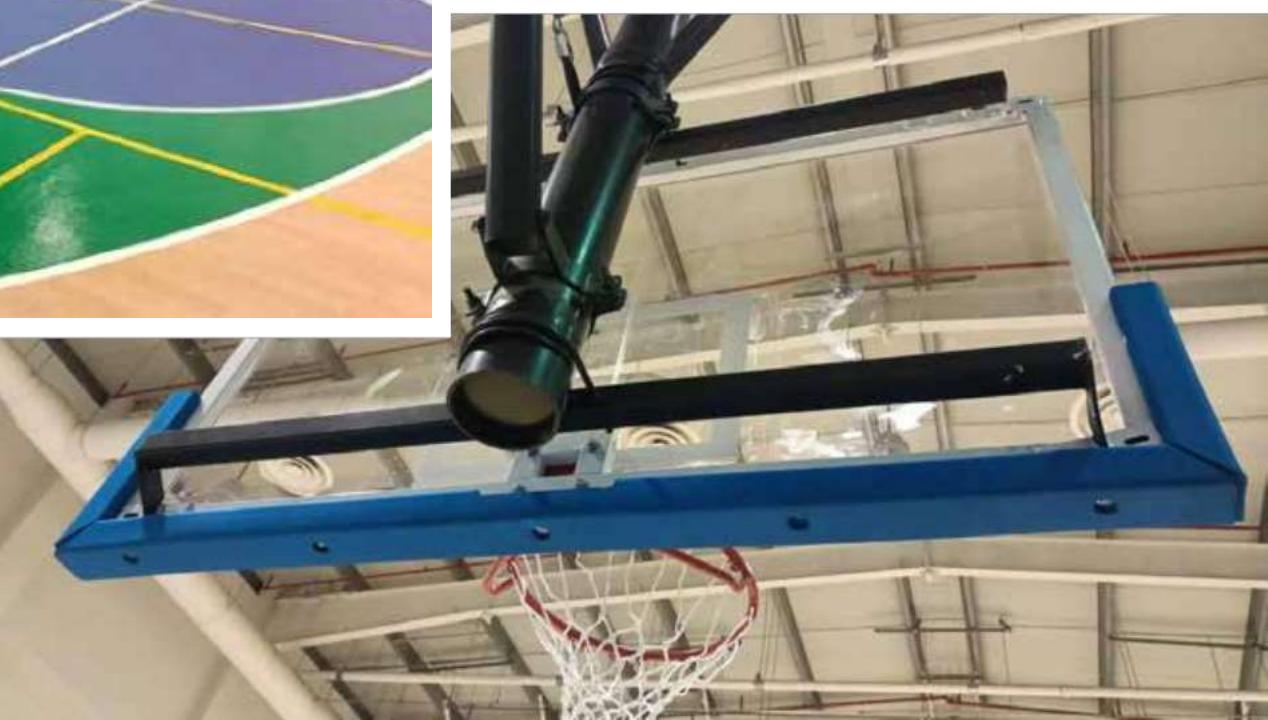

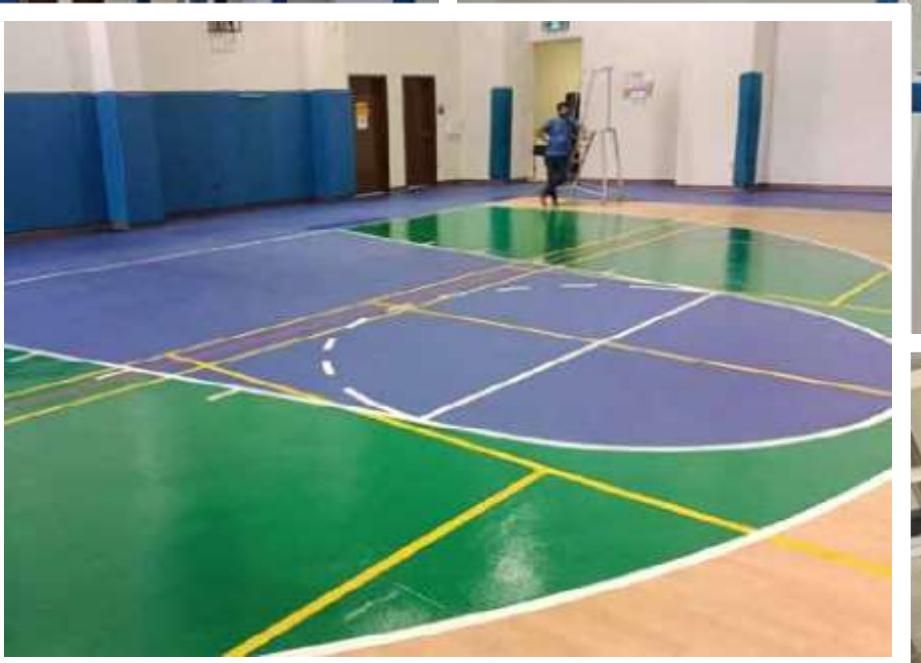

TRAMPOLINES

Trampolines aren't just fun apparatuses for children of all ages, they're great entertainment for adults too. And not only are they a ton of fun, but they also provide quite the workout! Trampolines can easily be incorporated into an exercise routine for all the family
